Subject: RE: Draft comments on the Pebble Project Preliminary Final EIS

All,

Thank you for the combined suggestions and revisions. I met with the team yesterday and based on our discussion I would like to propose the following. The team will continue working to accomplish two specific tasks. The first task is to incorporate and address the feedback you have provided, additional comments and revisions provided by management here in the region and make changes based on last week's technical meetings.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I will send the final version of this table to you on

Thursday March 19, 2020. The team continues to work diligently on this project and the additional day will allow us to complete what I've outlined above.

If additional time is necessary for discussion or review of key issues, considering the additional challenges we're all facing at this time I think it would be worthwhile to request that the USACE allow for a few more days to complete this review.

Thank you.

Chris Hladick
